

To whom it may concern

Lenny Amore has done an excellent job for me in restoring several rooms in my house that were damaged due to a water leak..He promptly came to my house and went over with me all the work that would take place to restore my house back to normal. All of his workers did an excellent job. Lenny came each day to check on the work that was done and to ensure me that all would be taken care. Lenny is such a fine person and has done an excellent job.
